**\$2500
Scholarships
AVAILABLE**

NEMR Telecom is pleased to announce our continued participation in the Foundation for Rural Services (FRS) Scholarship Program. FRS awards a one-time \$2,500 scholarship to students from rural America for their first year of college, university or vocational-technical school.

Should a student from our service area be selected to receive one of the scholarships (\$2,000 each), we will contribute an additional \$500 to the scholarship, bringing the total one-time scholarship award to \$2,500. The application deadline is **March 6, 2020**. NEMR Telecom encourages our area high school seniors to apply online at <https://www.frs.org/programs/youth-programs/scholarships>

NEMR TELECOM SCHOLARSHIP

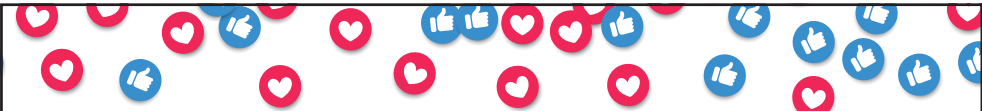

NEMR Telecom's Board of Directors recently approved to award two \$500 scholarships to college bound area high school seniors. Applicants must meet the following guidelines to be eligible for a NEMR Telecom Scholarship:

- Field of study must be geared toward telecommunications, computer science or a trade related field in telecommunications
- Must be a graduating high school senior
- A United States Citizen
- Have been accepted by an accredited two or four-year college, university or vocational-technical school
- Grade point average (G.P.A.) 2.0 or higher
- Applicant and parent or guardian must live in a NEMR Telecom exchange
- Parent or guardian must have NEMR Telecom service
- NEMR Telecom employees and board member families are not eligible.

Applicant instructions and more details are available on our website: www.nemr.net **The deadline is March 6, 2020.**

Our offices are CLOSED
Monday, February 17th, 2020

OUR COMMUNITY HAS LOTS TO **LIKE & LOVE**

Thanks for putting your heart into everything you do, and thanks for allowing us to connect you to the people and resources that matter most.

This month, we are giving away a **Ring Smart Doorbell**. To be entered in the drawing, write a review or give us a 4 Star or above rating on NEMR Telecom's Google Business page. Here's how: **1.** In your Google browser, search for our website. **2.** Write a review and/or star rate us.

WE'D ❤️ TO READ YOUR REVIEW!

THE BUZZZZZ

CUSTOMER NOTICE

Backup Power for Residential Voice Telephone Services during Power Outages: For many years, your home telephone would allow you to stay connected to emergency voice services during a power outage. However, if your voice telephone service is provided using fiber optics or fixed wireless rather than the traditional copper-based line, the voice telephone service requires backup battery power to continue functioning during an outage. To avoid a disruption of home voice service during an outage - and to maintain the ability to connect to 911 emergency services - NEMR Telecom provides you with a battery for the backup power for your voice telephone service at the time of the initial installation at no additional cost.

What Your Battery Can - and Can't - Do for You: The backup batteries for telephone modems provided by NEMR Telecom allow you to continue to use your home voice services during a power outage. Without a backup battery or alternate backup source such as a generator, customers with fiber or fixed wireless based residential telephone service will not be able to make any calls, including emergency calls to 911. The only way to maintain the ability to use your telephone is by using some form of backup power.

Our backup battery does not provide power to any services other than voice. Home security systems, medical monitoring devices and other equipment will not run on a residential voice telephone backup battery.

Replacement Options: As previously noted, a backup battery has been provided by NEMR Telecom during the initial installation. However, the battery provided by our company may need to be replaced every 6 to 10 years or when the battery is no longer functioning.

• NEMR Telecom provides replacement backup batteries - NEMR Telecom will provide and install at no cost to you, a replacement battery,

when it becomes known that the original battery needs to be replaced. If you have any questions, please call 660-874-4111. Additional spare backup batteries to be stored in your home may be purchased from our company.

Expected Backup Power Duration: Backup batteries are expected to last at least 8 hours on standby power. The backup battery should give you at least 6 hours of talk time. The backup batteries will NOT work for internet or television. If you feel that is not enough time, you may extend your standby power by purchasing from our company additional spare 8-hour batteries.

Instructions for Use of Your Battery: These batteries are usually not rechargeable. They will not last forever and should be replaced every 6 to 10 years, or when the indicator light for the battery shows that it is low or out of charge.

NEMR Telecom has extra batteries. They are \$40 per extra 8 hours of battery backup for telephone use. Thank you!
