## ALLOCATION NOTICE

Your NEMR Telecom capital credit allocation notice is on your June bill. This shows your share of the Cooperative profits for the previous year. If you had service with NEMR in 2019, you will have a notice on your June bill. The profits of the company are allocated to each member based on the individual member's patronage. Patronage is all member billed telephone services, including long distance, HSI (High Speed Internet) and nemrTV.

The 2019 capital credits that have been allocated are not immediately available to you, but are retained by the cooperative until such time as the board of directors and RUS (Rural Utilities Service) decide the financial situation of the cooperative justifies retiring some of the accumulated capital credits. The retained capital credits are vital as a means of partially funding new plant construction and service enhancements without requiring constant local rate increases.

Accumulating capital credits and receiving capital credit distribution checks is another important reason to purchase your communication services from NEMR Telecom.
