

REQUEST FOR NUISANCE CALL INVESTIGATION

This joint request by the undersigned telephone customer and the undersigned law enforcement official hereby authorizes Northeast Missouri Rural Telephone Company to take the necessary action to identify the source of nuisance calls being received by said customer.

It is understood that the Telephone Company can provide the subscriber's name, location, and telephone number of the equipment from which a particular call is placed, if the call originates from a one party line, by tracing the connection of that particular call. If, however, the call originates from a line serving more than one party, the names and locations of all parties on the line will be furnished. The particular party placing the call cannot be identified in the case of party lines. It is further understood and agreed that the undersigned law enforcement official and his assistant or deputy must be present at the time the call is traced and that information identifying the listing, location, and telephone number from which the call was placed may be furnished only to the undersigned law officer. It is recognized that the Telephone Company can in no way identify the actual person making the call.

Should compliance with this request or disclosure of such information result in claims or suits for damages against the Telephone Company, the undersigned will indemnify and defend the Telephone Company against loss for such claims or suits.
