CUSTOMER NOTICE

Backup Power for Residential Voice Telephone Services during Power Outages: For many years, your home telephone would allow you to stay connected to emergency voice services during a power outage. However, since your voice telephone service is provided using fiber optics, the voice telephone service requires backup battery power to continue functioning during an outage. To avoid a disruption of home voice service during an outage - and to maintain the ability to connect to 911 emergency services - NEMR provides you with a battery for the backup power for your voice telephone service at the time of the initial installation at no additional cost. The backup power battery works only on corded telephones.

What Your Battery Can - and Can't - Do for You: The backup batteries for telephone provided by NEMR allow you to continue to use your home voice services during a power outage if you have a corded phone. Without a backup battery or alternate backup source such as a generator, customers with fiber based residential telephone service will not be able to make any calls, including emergency calls to 911.

Our Backup Battery does not provide Power to any Services other than Voice: Home security systems, medical monitoring devices, internet, television, and other equipment will not run on a residential voice telephone backup battery.

Replacement Options: The battery provided by our company may need to be replaced every 6 to 10 years or when the battery is no longer functioning. NEMR will provide and install at no cost to you, a replacement battery, when it becomes known that the original battery needs to be replaced. If you have any questions, please call 660-874-4111.

Expected Backup Power Duration: Backup batteries are expected to last at least 8 hours on standby power. The backup battery should give you at least 6 hours of talk time. If you feel that is not enough time, you may extend your standby power by purchasing additional 8-hour batteries from our company.

NEMR has Extra Batteries: Additional backup batteries may be purchased from our company for \$40 per extra 8 hours.

Sweetheart Deal

Buzz has a Sweetheart of a Deal! Too sweet to miss!

Sign-up for Auto Pay and we will put your name in a random drawing for a

\$50 Visa Debit Card!

Steps to Enroll:

1. Go to www.nemr.net

Missouri One Call has a new name and logo, Missouri 811. Repairing cut utility lines like fiber optic cable can be costly. Remember, if you must dig, place a locate by either calling 811 or going online to www.missouri-811.org. Place a locate before you dig. It's the law.

It's Faster! It's Fiber! It's NEMR!

AFFORDABLE CONNECTIVITY PROGRAM

ACP Affordable Connectivity Program

ACP is a new federal program that helps low income families afford the cost of having internet service at home.

Learn how your household can save up \$30 on your monthly internet bill.

If you are struggling to afford internet service for your household, there is a government program that may be able to help. It's called the Affordable Connectivity Program (ACP) and it provides up to a \$30 monthly discount to qualifying households. NEMR is a participating internet service provider.

NEMR needs your help getting the word out to those in need of assistance. If you or someone you know is interested in learning more, visit www.fcc.gov/ACP or call toll free at 877-384-2575 between 8 a.m and 8 p.m. any day of the week.

Eligible households can enroll by going to **ACPBenefit.org** to submit an online application or print a mail-in application. Active Lifeline participants automatically qualify for the ACP and need to call NEMR's billing manager, Lori Fleshman, to receive the ACP benefits too!

The ACP is an FCC program.
