# NEMR TV
USER GUIDE AMAZON FIRE TV

- **Step 1:** Plug the Amazon Firestick into an HDMI port on your TV, noting which port (e.g., HDMI 1, 2, or 3) for input selection. Connect the Firestick to the internet by selecting your Wi-Fi network (SSID) and entering the password. Then, sign into or create an Amazon account. The TV will walk you through this step. If using an Amazon Fire TV, proceed to the next step.
- **Step 2:** Add NEMR TV to your Amazon Firestick by pressing the Home button on the remote. Navigate left to the search icon, then type in NEMRTV.
- **Step 3:** Select the app with our logo (pictured); then, click Get to download it. This can take up to 20 minutes.
- **Step 4:** Once the app is downloaded, open it and enter the Login and Passphrase emailed to you. If you didn't receive it, call our office. After entering the details, click Save, and you're ready to stream!

Recording (Only if you have NEMR DVR)
Open NEMRTV and navigate to the program you want to record. Highlight it and press the Select button (center of the circle). This opens a details screen with options: Watch, Record, and Search. Choose Record, then select whether to record new episodes, all episodes, or a one-time recording.

Watching Recordings
Select Recordings from the Tab Bar to view your list of Current Recordings. Highlight the program and press Play/Pause to start. For multiple recordings, select one and press Play/Pause.

Navigating the App Content & Lists
Use the remote circle to navigate (left, right, up, or down) and highlight items. Press the center to select a highlighted item. Press Home to return to the Home Screen and Back to go to the previous screen.

Watching NEMR TV
From the Home screen, highlight the NEMRTV icon using the remote and press the center to open the program guide. To watch a channel, use the remote ring to navigate up or down to a program highlighted in blue; then press Play/Pause to view the current program.
